

EMBASSY OF INDIA
KUWAIT

Press Release

We receive, on a daily basis, some highly distressed Indian nationals who visit the Embassy for various reasons. Many of them are either runaway housemaids or male domestic workers/workers at farms who have escaped ill-treatment and torture meted out to them by their sponsors in Kuwait. They often seek shelter in Embassy and help in repatriation.

2. These distressed Indian nationals are often found hungry and dehydrated. As an immediate welfare measure from the Government of India, the Embassy will provide all of them light snacks and soft drink free-of-cost while attending to their personal problems.
